SCA2014-00102
Douglas Avenue Alley Abandonment
Summary of Public Comments and Staff Responses

Resident	Comment	Staff Response
Wilma Bell 305 Frederick Avenue	Resident raised concerns about the age and condition of trees within the right-of-way.	In response to the resident's concern, the City Forester met with Ms. Bell and agreed to perform preventative tree maintenance prior to formal abandonment.
Anita Summerour 715 Douglas Avenue	Resident raised concerns about the condition and location of a fence dividing her property and the right-of-way in question.	In response to the resident's concern, staff assessed the condition of the fence along her property and determined it to be good. Staff spoke with Ms. Summerour and confirmed our position that it is not in the public interest for the City to relocate a fence to meet new property lines. Staff explained to Ms. Summerour how to apply for a fence installation or relocation permit, and Ms. Summerour understood that it would be her responsibility to obtain a permit and move the fence should she ever decide to do so.
