

**Public Comments**  
**Gude Drive Maintenance Facility Art Project**

- I like the dump truck for Gude Drive.
- Awesome sculptures
- Artist Aaron P. Hussey: Community sphere is best for Rockville.
- Aaron Hussey artwork best reflects the work accomplished by employees housed at Gude of the three proposals.
- The earth looks very creative.
- 1. Building Rise: yes, if have building element face road with strong vertical away from road. Increase person to larger height—a little too small scale and building respectively. Put in a maintenance uniform. 2. Globe – too institutional 2. Truck- not dynamic enough
- Please reject all three. Start over. Ask the staff who work there.
- These suck. Please talk to staff (workers) at Rothgeb.
- The City will spend \$50,000 on artwork while giving employees a 1% cost of living. What an insult to the City employees. It is outrageous that the City government will spend money on such waste while increasing employees cost for benefits. The City should be ashamed.
