East Rockville Art Project

- The tile work from East Los Streetscapes is wonderful. But I question why so many artists that are not regional?
- I vote for “Greeters”. I walk home from the Rockville Metro every day and this sculpture would be a pleasure to see.
- The sculpture of the woman and child by Harold Rittenberry, Jr. is my absolute favorite! This is the first time I have seen all three and as a resident since 1984 of Croyden Park in East Rockville. I more than welcome an attractive addition to our community especially since it will be located directly across from Metro. While I am not an art expert, I would encourage you to let East Rockville residents offer their ideas and make the decision.
- The general are selected for the art is often “tagged” by graffiti artist. The art selected must have a surface that is “graffiti proof”. At minimum the surface must be repaint able. Of three pieces, the Harold Rittenberry piece seems the most acceptable.
- None of the above—scrap them all. Ask ERCA what they want or do not want. Again—none of these work or are wanted.
