

**Public Comments**  
**Courthouse Square Park Plaza Art Project**

- “Logistique” is beautiful.
- I love the rainbow path.
- I like the fountain.
- I like the bird stuff.
- I like the birds.
- I like the tile.
- Nice choices. I think we have enough art with history and iconography in town center area already so I vote for “Logistique”. It is simple, clean and open.
- This exhibit needs a map clearly defining and locating the park and work area. Where exactly is it? I am not sure anything is needed on the ground of the historic courthouse. I would rather it be left in its historic form and context. It would be appropriate and nice to display art and to landscape (grass, trees, benches) the open area at the new courthouse across the street. Of the four proposals on display, the one on the right by Ms. Saunder is the hands-down winner.
- With all the talented artists in our local area. Why are we not shopping locally to support the taxpayers in the Montgomery County community?
- I think it stinks. The art is poor and childish. Why can't Rockville get a decent artist?
- From a 30-year resident, offer more help to the disabled people instead of buying over priced artwork.
- Our tax dollars pay for this.
